### READY FOR THE PUBLIC

Butte's Library Catalogue Has Been

IT IS A JIM DANDY, TOO

Pages That Will Give Useful and Interesting Information to Hundreds of Homes In Butte.

Butte, July 29.—The catalogue of the Butte public library is out. The board of library trustees will hold a special meeting to-morrow evening to receive the work. The books are very handsome, the cataloguing is accurate, and the publication reflects great cradit on everyone connected. reflects great credit on everyone connected with it. One hundred copies are bound in morocco to be sent to other libraries, and 2,900 are bound in cloth. All that was possible of the work was done in Butte, T. E. Bulles, of the STANDARD being pub. E. Butler, of the STANDARD being pub-E. Butler, of the STANDARD Design pages lisher, but the half tone advertising pages lisher, but the half tone advertising pages and the embossed covers were procured in Chicago. The cover is releived by an embossed cut of the library building. The first page of the book shows an admirable cut of Charles X. Larrabee, who made the original gift which, supplemented by gifts of other citizens, made the library a possibility. The preface explains the way in sibility. The preface explains the way in which it became possible for the catalogue to be issued this year:

which it became possible for the catalogue to be issued this year:

BUTTR, Mont., July 24, 1804.—In making it possible to Issue this catalogue for the use and convenience of the patrons of the Butte free public library, the incurrence of a great expense was necessary; a cost, which, if taxed against the library fund, would have made the publication at this time impracticable. The library trusices therefore found it expedient to adopt a pian by which the catalogue was issued without being a draft upon the library fund, and at the same time give to the public a complete and perfect binding list of the 16,000 volumes in the library, and provide the advertising medium for reaching the notice of innumerable readers who could not be reached by any other means. The list of advertisers and the character of the advertisements were submitted to the trustees and by them approved. While no apology is at all necessary for the appearance of the artistic advertising pages in this catalogue, yet this brief explanation may be proper, as it is a new venture and a slight department from the usual make-up of library catalogues. There are 3,100 of these lists issued, and it may be of interest to know that 5,000 pounds or 2% tons of paper are used in them. The typographical work is the product of home printers, and this book is condently submitted to the public.

The book contains 184 pages. There are explanations respecting the catalogue and the use of the library, how to secure membership, reference books, etc. The catalogue of issuable books is compiled with great care by Librarian Davies and comprises the bulk of the book. A catalogue of reference books is also given.

An appendix tells of the origin of the library and the contributors to the book fund. A second appendix gives the list of donors up to July 28.

The advertisements add to the artistic

fund. A second appendix gives the list of donors up to July 24.

The advertisements add to the artistic appearance of the book, being half tones which, scattered through the book, relieve happing the pages containing the lists of the books. The people of Butte are to be congratulated on having so excellent, complete and attractive a catalogue, due to the industry of Librarian Davies and the trustees, to the enterprise, taste and executive ability of Mr. Butter and to the generosity of the advertisers. The catalogues are to be given to the people of Butte to be kept at their homes. It is but right that the list of the advertisers who made the issuing of the catalogue a feasible project should be mentioned.

Music That Goes.

Twenty pieces for one dollar, or if mailed, \$1.30. In a week we have sold about 8,000 copies, but still have about 2,000 copies left and it must all be sold. 2,000 copies left and it must all be sold. In answer to many letters received from out-of-town parties, asking for lists of this music, we woold state that we have no lists. It would take too much time to make oneand we could not sell it at any such price if we had to go to this expense. Send to us and we will make good selections for you. This great cut sale also includes music books, instructions, guitars, banjos, violins, mandolins, accordeons, etc. Over one-half of the entire Orton Bros. stock already sold. Parties intending to get bargains in these goods should buy this week. We don't expect to have any of it left by Saturday night. Sherman Music company, 223 North Main street.

A FIZZLE The Big Show of the Wild and Weelly Cree Indians.

Cree Indians.

BUTTE, July 29.—About 1,000 people went to the show of the Cree Indians at the track this afternoon. The Indians were evidently not adepts in the art of entertaining a pale face audience, although they did the best they could to show their dances and sports. The dance was participated in by about 50 Indians. Six of them, constituting the orehestra, formed a circle about a big rude drum and best on it to furnish time for the dancers and occasionally sang a come-all-ye to add sest to the occasion. There were a number of races, but the sham battle did not take place as the national guard was unwilling to loan its guns.

MONUMENT TO JOHN BROWN. Proposition to Build One at the Site of

the Old Harper's Forry Fort. The plan for a monument originated with Captain Chambers, an old and highly has for a number of years been the agent of the Baltimore & Ohio railroad at that place, says the Washington Post. Cap-tain Chambers has within a few days visited Washington to enlist the aid of some of the prominent men of the city in the cause. He said that the people of Harper's Ferry had felt keenly the mistake they had made in ever allowing the old engine house, which served as the fort of the abolitionists, to be removed, and they have endeavored if possible to erect on the site of the historic building a memorial shaft that shall mark the spot for the thousands of travelers who annually make the pilgrimage to the scene of the famous fight. The old engine house was sold to a syndicate of Chicago capitalists about a year and a half ago and was taken to Chicage, where it was one of the many objects of interest among the buildings that had been re-stored for the entertainment of visitors to the fair.

While Captain Chambers was in Wash While Captain Chambers was in Washington he interviewed Congressman Reed of Maine, William E. Chandler, Fred Douglass and a number of others, from whom he received all possible encouragement; one gentleman, whose name has not yet been made public, pledging \$15,000 toward the project. A committee has been appointed, of which Mr. Douglass is one of the members, to solicit subscriptions. In conversation with a Post reporter last night Mr. Douglass said: "It seems to me conversation with a Post reporter last night Mr. Douglass said: "It seems to me that the plan for a monument on the site of the old fort is a very appropriate one. The old engine house ought never to have been taken away in the first place, but since it has, the next best thing that can be done is to replace it with a lasting shaft in memory of John Brown. I do not know what success we shall meet with in soliciting subscriptions, but the Baltimore & Ohio railroad has donated the ground to be used and has promised us that it will be used and has promised us that it will transport all the material for the monu-ment free of charge. The project has been broached to Mr. Brown of Put-in-Bay, the son of John Brown, and he is heartily in favor of the movement. It is hoped, if the scheme is carried through, that the monu-ment will be ready for dedication about next October." The design of the monu-ment has not yet been decided upon, but it will probably be a monolith with a suitable base and inscription, and will cost in the neighborhood of \$50,000.

TWO SIDES TO THE STORY. Selling Them and Giving Them Away

Are Two Different Things. When a dealer sells three pianes in one day, ordinarily it would be called big ess. When a man sells 26 pianos in a single day, and keeps the rate up until be sells 143 piance in one month, the pub-lic naturally thinks it is something wonderful and that the dealer ought to be satisfied. Under ordinary circumstances, and at regular retail prices, most any \$2,000 to his wife and left town with the sold in a month. The largest rotail house in New York or Chicago cannot equal at their prices the number of piano sales I have made in a month (143) in the city of have made in a month (143) in the city of Butte. But when you come to consider that I have offered, and sold these pianos for one-half the regular price, about one-half lower than the floor salesman in these large retail houses are instructed to get for such pianos. Then is it any wonder that 143 could be sold in a city of 30,000 inhabitants in 30 days? 000 inhabitants in 30 days?

When I stand here as a representative of the great Kimball factory and offer a plane that retails everywhere for \$350, for \$329—and a piane that retails east without freight at \$450, for \$280. And planes that retail at \$400, for \$288, and the \$375 style for \$195, any and all of them on terms of \$25 down and \$10 a month, (simple pant). style for \$195, any and all of them on terms of \$25 down and \$10 a month, (simply rent), then I don't consider 143 piano sales in a month at such prices and terms anything wonderful; and the only wonder to me is that I have three beautiful new scale Kimballs left for sale to-day. I know there are hundreds yet in this city who are amply able to own a piano and who have none. They are either putting it off through carelessness or don't realize what they are missing. If they can't afford a piane at my terms—at the price it costs to make them and at the rate of \$10 a month—30 cents a day—they never can afford nor never will own one at retail prices. The difference is so great it would be just like buying two.

If you ever expect to own a piano and have got nerve enough to put \$25 in your pocket for the first payment, and will come early to-day to 305 North Main street (Orton Brothers' music store) I think you and I can agree, and you never in your life can make \$200 easier. This is positively your last chance to do business with me. Store open all day and this evening to-day. We leave for Portland to-morrow.

IN THE GOOD OLD DAYS

Silver Bow Pioneers Pight Their Battles O'er Again.

THEY'RE DOING GOOD WORK

The Meeting Yesterday Was Well Attended and Was of Particular Interest to Those Present.

BUTTE, July 29.—The Pioneer association of Silver Bow county held another interesting meeting this afternoon at the office of Coroner T. C. Porter. There were present about thirty of the grizzled, hopest old timers, whose company was graced by a number of ladies, all matrons, but we receive the bloom of worth upon.

but yet wearing the bloom of youth upon their bright faces.

In the absence of the president, Dr. O. B. Whitford, Judge Newkirk occupied the chair. After the reading of the minutes, the name of the names of several new mem were present, were added to the roll. A new constitution had been written and was unanimously adopted.

Acting President Newkirk appointed a

committee of three, consisting of Dr. Whitford, W. T. Shirley and T. C. Porter, to draft a set of by-laws and add to the constitution a few clauses necessary to make it more constitutional and binding. The initiation fee was fixed at \$2 for active and honorary members, with \$1 a year as dues.

The motion to admit the old timers of '66 as honorary members was amended so as to lay it over until the next regular meeting when final action will be taken. The time for the first regular meeting since this, the thorough organization, was the first Sunday in November, with regular meetings every three months thereafter. Special meetings may be called at any time at the request of five members, signed by the president and secretary.

The recording secretary and historian were requested to gather such data, sketches, statistics, episodes, incidents and all general matter, which would materially assist in forming interesting and truthful historical matter dating from the first settlement of Silver Bow county and have it compiled for reading at the next meeting. All the members were carnestly requested and urged to assist the historian by every means in their power to gather valuable material for his work.

The regular work of the association being concluded, the members spent an hour in recalling pleasant memories and actual occurrences of the early days, when they crossed the prairie seas in schooners on wheels; reviving the dangers of their journeys, when both men and women were sometimes compelled to use their guns to ward off the attacks of redskins or prevent a stampede of their stock.

As it is now thoroughly started, the Pioneer association of Silver Bow county promises to be an organization which will only end with the lives of its members, and which, during its existence, will furnish to history matters and details of early life in Montana not otherwise to be had, and which will be of priceless value to future generations. '66 as honorary members was amended so as to lay it over until the next regular
